Supervised Visitation

A supervised visitation facilitator plays a crucial role in providing a safe and secure environment for families and children during court-ordered visitation. They offer hands-on assistance and guidance, ensuring that children can maintain relationships with their parents in a safe and appropriate setting.

We offer evidenced based practices:

Parent Promise is committed to supporting families and caregivers through a variety of evidence-based parenting curriculums (Triple P Parenting, Nurturing Parent Program, Common Sense Parenting).

Our Parenting services cover a wide range of topics, from understanding child development and positive discipline to managing stress and navigating digital parenting.

These services are designed to empower parents with the knowledge, skills, and resources needed to raise happy, healthy, and resilient children, tailored to meet the diverse needs and concerns of individual families at different stages of their parenting journey.

Our History

Parent Promise was established by Candace Stallworth in August 2020 with the aim of increasing positive parenting skills to reduce neglect and child abuse reports. We offer parents and caregivers an experience to develop positive parenting skills.

The slogan "Positive Parenting ONLY" encourages parents and caregivers to be purposeful and positive when developing youth with integrity. Parents and caregivers are the most vital parts of the next generations outcomes and integrity.
